Firebase

SUMMARY

Highly skilled and motivated Full-Stack Ruby on Rails Developer with 5 years of experience in designing and implementing robust web applications. Proficient in all development lifecycle stages, from conceptualization and planning to coding, testing, and deployment. Demonstrated expertise in developing academic, e-commerce, and logistics applications, delivering efficient and user-friendly solutions.

PROFICIENCIES

Front-End Development: Proficient in HTML, CSS, and JavaScript, with experience in implementing responsive designs and utilizing front-end frameworks such as Bootstrap, and Tailwind.

Back-End Development: Solid knowledge of database management systems, including MySQL and PostgreSQL. Skilled in creating efficient database schemas and writing optimized queries.

Full-Stack Proficiency: Comfortable working with both front-end and back-end technologies, ensuring seamless integration and functionality across the entire application.

Problem-Solving: Strong analytical and problem-solving skills, adept at identifying issues and implementing effective solutions to improve application performance and user experience.

Collaboration: Excellent teamwork and communication abilities, collaborating effectively with cross-functional teams and stakeholders to achieve project goals and meet client requirements.

WORK EXPERIENCE

Freelance Developer

DarkStar UD, Chicago, IL | 11/2022 - Present

- Proficient in developing custom Shopify e-commerce themes, ensuring seamless integration of design elements, responsive layouts, and optimized performance.
- Extensive experience in building robust and scalable Ruby on Rails applications, implementing MVC architecture, database management, and RESTful API integration.
- Skilled in creating dynamic and interactive user interfaces using ReactJS, leveraging reusable components, state management libraries (such as Redux), and modern JavaScript frameworks.
- Excellent communication skills, fostering effective client relationships through regular updates, requirement clarification, and timely response to inquiries or feedback.

WORK EXPERIENCE *CONTINUED*

RUBY DEVELOPER

Capstone Logistics, Chicago | 10/2021 - 11/2022

- Enhanced the functionality of the Rails API and JavaScript-driven UI by implementing crucial updates, resulting in improved overall performance and user experience.
- Developed and implemented delayed jobs to efficiently consume data from external APIs, enhancing data synchronization and streamlining processes.
- Successfully created webhooks to establish seamless integration with third-party services, enabling real-time data exchange and automation.
- Facilitated standups and conducted bi-weekly sprints, ensuring effective team collaboration, progress tracking, and timely project deliveries.
- Assumed the responsibility of reviewing pull requests, maintaining code quality standards, and fostering a collaborative development environment.
- Formulated standardized procedures for seamless code integration into the main branch, optimizing the development workflow and minimizing conflicts.

DEVELOPER

Northwestern University, Evanston, IL. | 3/2017 - 10/2021

- Successfully implemented and maintained a suite of six web applications at Northwestern University, leveraging the Laravel and Ruby on Rails frameworks for efficient and scalable development.
- Utilized PHP and Ruby to code robust and feature-rich functionalities, ensuring seamless user experiences and optimized performance.
- Developed comprehensive test cases using PHPUnit, Rspec, and Cypress, ensuring the applications quality and reliable functionality.
- Deployed applications on AWS EC2 instances, ensuring reliable and efficient hosting, as well as scalability to accommodate increasing user demands.
- Demonstrated proficiency in reviewing pull requests, ensuring code quality, and facilitating collaboration among the development team.
- Mentored junior team members, offering guidance and support in adopting best practices, promoting professional growth and knowledge sharing.
- Implemented procedures to improve overall code quality, emphasizing clean coding standards, documentation, and adherence to best practices.
- Advised on and recommended tools to enhance developer performance, productivity, and collaboration, resulting in streamlined workflows and improved efficiency.
